

Sculpt Ergonomic Keyboard

Designed by Microsoft™

Iconic design, mastered performance. Ergonomic. Portable. Wireless. Encrypted.

Informed by the natural movements of your body, the Sculpt Ergonomic Keyboard, Designed by Microsoft™, is made for productivity and performance. Crafted with the intention of a relaxed, comfortable, and easeful computing experience, the Sculpt Ergonomic Keyboard features a removable elevator, enabling you to create without consistent stress or strain on your wrists and hands.

Features:

- Designed by Microsoft™
- Cushioned palm rest promotes a natural wrist position while providing all-day support
- Domed keyboard and split keyset design help to ideally position your wrists and forearms in a natural, relaxed position for all-day use
- Removable elevator for preferred wrist comfort
- Natural arc key layout mimics the curved shape of the fingertips
- Reverse tilt angles the keyboard to promote a straight and neutral wrist position
- Windows button for one-touch access to the start menu
- Separate number pad provides greater flexibility for workspace setup
- Advanced Encryption Standard (AES) 128-Bit Encryption technology
